Child Protection Policy

The Australian Bowhunters Association (ABA) is committed to the safety and wellbeing of our children and young people who are participants in our sport. We will endeavour to ensure a safe and secure environment free from abuse, harassment, bullying, vilification, or harm.

Each State and Territory of Australia has a differing policy on Child Protection and the National Body of ABA is bound by the laws and policies of each particular state where we conduct business, this includes National events.

Each Branch when conducting business in their relevant state is to follow the State Rules and Policies.

Working with children checks are to be undertaken in each relevant state where the person is holding such a position or employment.

Enquiries and further information for each state can be found at the following web addresses:
